- Polish
- English

About Me

I'm a 6th year medical student and a member of 2 Radiology Societies as well as Ultrasound Section at the Medical University of Lublin. I gladly involve in various conferences and projects. My strengths are leadership and organizational skills. I am a conscientious, contactable and factual person, which makes me an excellent speaker. I also characterize by a strong ability to work under time pressure.

Scientific activities

- 2021 - 2022 - Head of research project as a part of the "Mini student grants" program organized by the Medical University of Lublin
- 2020 - present - Author/co-author of 9 publications with Impact Factor (35,531 IF in overall)
- 2019 - Internship at the Department of Radiology, Interdisciplinary Ultrasound Center at Großhadern Clinic, Munich under the supervision of Prof. Dr. Dirk-André Clevert, M.D.
- 2019 - Attendance at courses "Ultrasound Based Elastography-Clinical Applications", "Contrast Enhanced Ultrasound in Clinical Practice" as a part of the Euroson School
- 2019 - present - Participation in 3 research projects organized under the Best of the Best 4.0 program by the Ministry of Science and Higher Education
- 2018 - present - Participation in dozens of conferences for example: Warsaw International Medical Conference 2022, Juvenes Pro Medicina 2020, 2022, Bialystok International Medical Conference 2021, 2022, European Congress of Radiology 2021, 2022, Crohn & Colitis Congress 2021, 2022, International Pediatric Radiology Congress 2022, UltraCon by The American Institute of Ultrasound in Medicine 2023, EUROSON 2018, 2019, 2022
