

UEG Week 2023 12-15 October 2024, Vienna

Ultrasonography for the Gastroenterologist – "See with Sound Inside the Abdomen"

The **UEG Ultrasound Learning Area** promotes the role of a major diagnostic and interventional tool in gastroenterology: clinical ultrasonography in the hands of the gastroenterologist.

All the UGE Week participants are invited to explore the "world of imaging with sound".

This year the Ultrasound Learning Area offers basic and postgraduate courses on ultrasonography, individual hands-on training and special lectures in abdominal ultrasonography. The programme is specially designed for both young and senior gastroenterologists, with or without experience in ultrasonography, and also for those with interest in the new developments in ultrasound based techniques.

The tutors will be at your side during the UEG Week to guide you on this interesting diagnostic tool.

Main topics of the special lectures are **Point of Care Ultrasound in Gastroenterology** and **"The new kids on the block" in abdominal ultrasound**.

The Ultrasound Learning Area is run in courtesy of EFSUMB.
