

EUROSON

School of ABDOMINAL ULTRASOUND

Zagreb, 18-19 December 2025

Organized by
WFUMB Center of Education Croatia,
National referral center for the
interdisciplinary ultrasound in medicine,
University hospital Dubrava Zagreb

In collaboration with
Croatian Society
for ultrasound in medicine
and biology, Croatian
Society of gastroenterology

Endorsed by
European Federation
of Societies for ultrasound
in medicine and biology

DAY 1: **Thursday**, 18 December 2025

08:30-10:00 **Basic principles of ultrasound and normal findings**

1. Basic principles of grey-scale examination, artifacts and knobology / Varga D
2. Normal ultrasound anatomy of hepatobiliary system / Stojsavljevic S
3. Normal ultrasound anatomy of pancreas and spleen / Prelevic E
4. Normal ultrasound anatomy of urinary tract and pelvis / Qirinxhi D
5. Basic principles of Doppler examination / Brkljacic B

10:00-11:00 **Hands-on session 1: Grey scale ultrasound and Doppler of abdominal organs**

11:00-11:30 **Coffee break**

11:30-13:00 **Ultrasound pathology of abdominal organs**

1. Ultrasound in diffuse and focal liver diseases / Popic J
2. Ultrasound in biliary tract diseases / Manolev A
3. Ultrasound in pancreatic diseases / Popescu A
4. Ultrasound in the bowel diseases / Jenssen C
5. Ultrasound in the diseases of urinary tract and pelvis / Saraci B

13:00-14:00 **Lunch break**

14:00-15:30 **Ultrasound elastography and steatosis quantification**

1. Basic principles of elastography, tips and tricks / Pastrovic F
2. Transient elastography in chronic liver diseases and portal hypertension / Grgurevic I
3. pSWE and 2DSWE in chronic liver disease and portal hypertension / Garcovich M
4. Ultrasound-based quantification of liver steatosis / Hari A
5. Multiparametric liver ultrasound and artificial intelligence / Sporea I

15:30-16:15 **Hands-on session 2: Elastography and liver steatosis quantification**

16:15-16:30 **Coffee break**

16:30-18:00 **Contrast-enhanced and multiparametric ultrasound**

1. Basic principles of CEUS and how to perform it / Bozic D
2. Multiparametric ultrasound of the kidneys / Cantisani V
3. CEUS of focal liver lesions / Sirti R
4. Time-intensity curves analysis in liver diseases / Barisic Jaman
5. CEUS of pancreas, biliary tract and spleen / Moga T

DAY 2: **Friday**, 19 December 2025

09:00-10:15

Abdominal ultrasound: miscellaneous 1

1. Ultrasound of abdominal wall and peritoneum / Vasin D
2. Transperineal ultrasound / Troskot Peric
3. Ultrasound evaluation of adrenal glands / Stoian D
4. POCUS Ultrasound in abdominal emergencies / Soric M

10:15-10:30

Coffee break

10:30-11:30

Abdominal ultrasound: miscellaneous 2

1. Ultrasound-guided interventions / Cvetko D
2. Doppler in liver diseases and transplantation / Lalovac M
3. CEUS in vascular pathology / Divjak E
4. Ultrasound fusion with CT and MRI / Ivanac G

12:00-13:00

Hands-on session: liver biopsy and ultrasound guided tissue acquisition

13:00

END OF THE COURSE

[**FORMAT OF PRESENTATIONS:** 15 min (+3 min discussion), English language]

ORGANIZING COMMITTEE

Ivica Grgurevic, Boris Brkljacic, Ioan Sporea, Gordana Ivanac, Eugen Divjak,
Mislav Barisic Jaman, Frane Pastrovic

SCIENTIFIC COMMITTEE

Boris Brkljacic, Vito Cantisani, Matteo Garcovich, Ivica Grgurevic, Andrej Hari, Gordana Ivanac,
Christian Jenssen, Aleksandar Manolev, Tudor Moga, Alina Popescu, Denis Qirinxhi, Blerina Saraci,
Roxana Sirli, Ioan Sporea, Dana Stoian, Dragan Vasin

FACULTY
