

INTERNATIONAL FACULTY (requested)

Prof. Dr. Christian Jenssen,
Strausberg/ Wriezen, Germany

PD Dr. med. Peter Jo*,
Göttingen, Germany

Dr. med. Horst Kinkel,
Düren, Germany

Dr. med. Thomas Müller,
Wiesbaden, Germany

Prof. Dr. med. Dieter Nürnberg,
Neuruppin, Germany

Prof. Zeno Sparchez*, MD PhD
Cluj Napoca, Romania

Dr. Mathias Wüstner,
Kassel, Germany

Dr. med. Thomas Ybinger*,
Vienna, Austria

Dr Torben Lorentzen*
Copenhagen, Denmark

Ass. Prof. Tudor Moga
Timisoara, Romania

GENERAL INFORMATION

Venue

Hotel Aquino and Congress Centre of the
Catholic Academy
Hannoversche Str. 5B, 10115 Berlin, Germany

Organisation

Campus ACADEMY ug
c/o ukrb Haus „O“ R. 212
Fehrbelliner Str. 38, 16816 Neuruppin
Tel.: +49 (0)176 6861 8854
E-Mail: info@campusacademy-neuruppin.de
https://campusacademy-neuruppin.de

Certification

CME credits will be awarded by
Landesärztekammer Berlin.
The Euroson school will be approved as
DEGUM-Modul Interventional
US I & II by the German Society for
Ultrasound in Medicine (DEGUM).

Attendance Fee

620€ incl. VAT. Attendance fee includes
EFSUMB and DEGUM certificates.
Breaks are covered by the organiser. A social event will be orga-
nized and is included. Accommodation has to be organized by
the participants.

Congress Language

English

8th Euroson-School
Interventional Ultrasound
April 13 - 15 2026
Berlin, Germany

Campus ACADEMY

Brandenburg Institute for Clinical Ultrasound BIKUS

INVITATION

Euroson School Interventional Ultrasound Berlin April 13th - 15th 2026

The Berlin Euroson School on Interventional Ultrasound was founded by Dieter Nürnberg and Klaus Schlotttmann under the patronage of the Berlin-Brandenburg Ultrasound Society in 2010 and has since been well established in the European Interventional US community. The 8th Euroson-School 2026 offers you a well-balanced mixture of lectures and hands on training in almost all fields of sonographically guided interventions. Round table discussions and controversial sessions will help to offer an interesting and vivid learning ambience. European experts invite you to expand your knowledge and improve your skills – experienced sonographers are as welcome as “interventional novices”. Our Euroson school includes seven hours of hands-on training and interactive discussion. Sophisticated phantoms (biopsy, drainage, ablation) and ultrasound machines from handheld devices to high-end machines will be provided. Program will start in the late morning on Monday. Certificates will be handed out on Wednesday.

We are looking forward to a lively, instructive and inspiring Euroson School and invite you to join us in Berlin in April 2026.

Prof. Dr. Christian Jenssen, Dr. Thomas Müller
Course Directors

PROGRAM, Monday April 13th

10.30	Welcome (<i>Jenssen, Müller</i>)	
Basics		
10.45	Principles of needle guidance: in plane / out of plane freehand / biopsy attachment / puncture probe	
11.05	Needle types: Principles and function Full core (Biopince), Side notch (TruCut), Vacuum (Menghini), other principles Access: Directly vs. coaxial technique	
11.25	HOT 1: Material: Needle types, drainages, in plane / out of plane technique (<i>Faculty</i>) Simultaneously: Exhibition of US machines, interventional materials, attachments, disinfection Methods (<i>Manufacturers, Companies</i>)	
13.25	<i>Lunch break</i>	
US-guided biopsy: conditions for diagnostic success		
14.15	Difficult access: Targeting & needle guidance by CEUS, fusion & needle tracking	
14.35	CNB or FNA? Histology or cytology? What is needed when?	
Conditions for a safe biopsy/ intervention		
14.55	Coagulation status and prevention of bleeding complications	
15.15	Infection prevention	
15.35	Sedation or local anaesthesia or nothing at all?	
15.50	Tumour seeding: a real risk?	
16.10	<i>Coffee break</i>	
Round table		
16.30	Kinkel, Jenssen, Nürnberg, Zels	Experience and Evidence: best practice in US-guided biopsy. How many needles should be in your cupboard? Most appropriate needle diameter, guidance and targeting, preparation of material (cytology, histology)
17.05	<i>End of first day</i>	

PROGRAM, Tuesday April 14th

Biopsies of particular tissues I	
8.00	Lymph nodes: biopsy or extirpation? Pathologists comment
8.20	Focal Liver Lesions: Which to puncture? Pathologists comment
8.40	Diffuse Liver disease: Is biopsy still necessary in times of elastography? Pathologists comment
9.00	Renal cancer: biopsy or primary resection?
Round table	
9.20	Clinicians and pathologist in dialogue Biopsy in an oncological case: plan, perform, interpret
Biopsies of particular tissues II	
9.40	Thyroid: What to puncture and how?
9.55	Pancreas: if biopsy at all – always better by EUS? (<i>Jenssen</i>)
10.15	Spleen: really do it?
10.35	Lung tumour biopsy: if you can see it...
10.55	<i>Coffee break</i>
11.15	HOT 2: Biopsy Training. In plane, out of plane, with and without attachment (<i>Faculty</i>) Simultaneously: Exhibition of US machines, interventional materials, attachments, disinfection methods (<i>Manufacturers, Companies</i>)
13.15	<i>Lunch break</i>
Drainage placement - Basics	
14.00	Types of drainages: which to use when and why? Pigtail drainage, Mushroom drainage, Sump drainage
14.20	How to place a drainage: Seldinger's way, Trokar technique
14.40	Supportive use of CEUS
Specific Drainages and i.v. lines	
14.55	Vascular access

15.10	Optimal treatment of abscesses and empyemas The sonologist’s view Surgeon’s opinion
15.30	<i>Coffee break</i>
15.50	Acute cholecystitis: is percutaneous drainage an option? Surgeon’s comment
16.10	PTCD: the percutaneous and the rendezvous approach
16.30	EUS-guided biliary drainages: gadget or benefit? (<i>Jenssen</i>)
16.45	Pitfalls in interventional ultrasound (<i>Faculty</i>)
17.00	The urinary system: Nephrostomy and bladder fistula
Round table	
17.20	Experience and Evidence: best practice in US-guided drainage (best drainage type, lock or not lock, how to fix: Threadlock, Harzmann-Disc, Suture; best diameter, inside/outside/ both, suction, flushing, ...) (<i>Faculty</i>)
18.00	<i>End of second day</i>
19.00	<i>social event</i>

PROGRAM, Wednesday April 15th

Locally ablative therapies	
9.00	Basic principles of ethanol, heat and cold and HIFU...
9.15	Unresectable liver tumours: what can we do and how?
9.30	Cyst therapy by ethanol or what else?
9.50	Thyroid nodules in patients not eligible for surgery – how about ablation?
10.05	HOT 3: Drainage placement, vascular access, locally ablative therapies Simultaneously: Exhibition of US machines, interventional materials, attachments, disinfection methods (<i>Manufacturers, Companies</i>)
12.00	<i>Lunch break</i>
Pitfalls: Lessons learnt from what went wrong	
12.45	Case presentations and discussion (<i>Faculty and Participants</i>)
13.45	Closing words and certificates (<i>Müller, Jenssen</i>)
14.00	<i>End of Euroson School 2026</i>
